Re: Open Letter to America's Leadership – An Urgent Appeal: Please Help Elect Pierre Poilievre

Dear President Trump, Mr. Musk,

The City Show™ has conducted an investigative trip to Ottawa, Canada, on March 9, 2025, to document the ongoing political and economic crisis facing the country. Our findings paint a troubling picture: Canada's economy is in decline, media freedoms are increasingly restricted, and there is absolutely no accountability from the *Liberal Party of Canada* which has supported the destructive policies of its leader Justin Trudeau. Furthermore, there are many compelling signs that its new leader, Mark Carney, will continue with policies destructive to Canada and the well-being of its citizens.

As you well know, under the *Liberal Party's* governance over the last 10 years, Canada has seen record inflation, stagnating wages, unsustainable debt levels, and declining international competitiveness. Despite being one of the world's most resource-rich nations and a vital U.S. trade partner, Canada has been burdened by excessive government intervention, weak leadership, and restrictive policies that have failed to serve the interests of its people.

To address this crisis, we are reaching out to you, as leaders who have reshaped the political reality in America and challenged the status quo, to assist in amplifying this urgent message and facilitating a shift in leadership that prioritizes economic strength, free speech and prosperity.

Please find supporting materials for your consideration:

- A Video Appeal to the Canadian people, filmed in front of Parliament Hill in Ottawa;
- A Video Shoot covering Mark Carney's anticipated leadership win event, documenting a total lack of accountability from the *Liberal Party*;
- An Open Letter to Canadians; and
- A Press Release outlining the dire need for Canada's political and economic restoration.

The time to act is now. Canada cannot afford another decade of economic stagnation, restrictive governance, and media suppression.
